-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

FINAL ACTION

Status of the Claims

1. This action is in response to papers filed 28 October 2004 in which claims 1, 13-14, 16, 22-24 and 42 were amended and claims 9-10 and 15 were canceled. All of the amendments have been thoroughly reviewed and entered.

The previous rejections in the Office Action dated 9 August 1004 under 35 U.S.C. 112, second paragraph are withdrawn in view of the Applicant's comments on page 15-16 of the response. The previous rejections under 35 U.S.C. 102 and 35 U.S.C. 103 are withdrawn in view of the amendments. The previous rejection under obviousness-type double patenting is maintained.

Claims 1-2, 7, 13-14, 16, 22-24 and 39-42 are under prosecution.

Claim Objections

2. Claims 22-24 objected to because of the following informalities: The claims depend from canceled claim 15.

Appropriate correction is required.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re*

Art Unit: 1634

Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1, 2, 7, 13-14, 16, 22-24 and 39-42 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,607,908. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims are drawn to a substrate for immobilizing DNA. Both sets of claims are product-by-process claims and the process recited in both sets produce substrates having carboxyl radicals and hydroxyl groups. The claims differ only in the instant claims produce a substrate having 10 carbon atoms using sodium sebacate while patent claim 3 is drawn to a carboxyl as having 1 to 10 carbon atoms which is exemplified in the specification as sodium sebacate (Example 4). Hence, the patent specification defines the patent substrates as the instantly claimed substrate. Therefore, the instantly claimed and patent substrate are not patentably distinct.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1634

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Conclusion

6. The examined claims are free of the prior art. The examined claims may be placed in condition for allowance upon filing of a Terminal Disclaimer. The withdrawn claims drawn to methods of using the substrate may be re-joined upon amending the withdrawn claims to depend from or to incorporate one of the allowable substrates. For example, acceptable amendments to claim 12 would be to replace step (a) with "providing the substrate of Claim 1".

application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.
